User Guide

SEABiscut + Veterinary + Hospital is a modern global charity hospital offering up-to-date, technically advanced, consistent, high quality and complete **World Local & Wilderness Care**.

The User Guide will describe how each feature on the website operates and how to gain access, if you are a Client, to all the SV + Hospital Products and Processes. The front pages or gateway to SV + Hospital are open to all persons, animals of all ages worldwide.

The access to the site and services can be done in urban, suburban, rural and remote locations under normal, disaster and confrontational conditions either through the website or associated world local or wilderness care Clinics and Hospitals.

At the front of the SV+H website are sophisticated and free total body & mind diagnostic and therapy symptom search services. Our processes & product cures are found in associated local and wilderness care clinics worldwide. **OPEN** 24/7 Worldwide.

LANGUAGES   [Select Language ▼] -Text, Video & Talk + Interactive Sensory Monitors

SV + Hospital operates in 109 languages + 4 sensory monitoring modes through four mediums. They are' Text, Video & Talk' + 'sound, ID tag detection, visual recognition & touch'. To activate a particular language or sensor go to the top left corner of the front page and click one of two links. One of two lists will display. Simply click the one you require.

CLINICS - Find a Clinic

To locate an associated and approved Clinic simply insert your current GPS co- ordinates or location i.e. city, town etc. of choice or squeeze a ID Tag and then press the right hand symbol.

WORLD CLOCK - Major & All Local Locations   07:10:30PM

Since SEABiscut + Hospital operates in global real-time, the need for local correct times is necessary. The clock on the front of the site is driven by GMT and can be reset for most of the Major locations worldwide i.e. New York, London, Paris, Moscow, Amazon Jungle etc.

CONTACT - This is used for Administrative, **Registration** or Contact & **Doctors on Call**
